

Sizing Guide for Greyhound, Whippet and Lurcher Coats

At Milgi Coats, all the coats we make have been carefully tested on a range of greyhounds, lurchers and whippets before we finalise our patterns. We want you to have a great fitting coat, so it's important you take a few minutes to measure your dog.

When your dog is standing, take a tape measure and measure from the base of the tail to the base of the neck. If you are looking down at your dog from above, look for the two bony points of the shoulders and go just in front of them towards the head. You will hopefully end up with a measurement somewhere between 18" and 32".

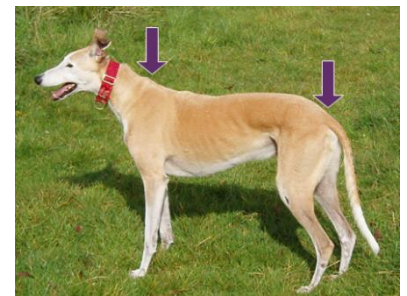

Measurement in inches	Measurement in cm	Our Size
18"	46cm	18
20"	51cm	20
22"	56cm	22
24"	61cm	24
26"	66cm	26
28"	71cm	28
30"	76cm	30
32"	81cm	32

Size not shown - we offer a bespoke service, contact us for details

If your measurement is an even number, great, time to order!

If your measurement is an odd number, what should you do?

We recommend going up a size. Let's say you've measured your whippet, and they are 21". You want a fleece coat for them, so you'd need to order a size 22" coat.

If you're not happy with the fit of the coat once it's on your

dog, we are always happy to exchange (except for bespoke items), please contact us.
